Friday 17 January 2025

This week I've been treated to an impromptu concert from my office, as Evenlode class embarked on their musical journey with clarinets. Their 'melodious' tunes have been floating through the corridors, bringing a smile to everyone's faces.

Out in the fresh air, our children have been exploring and challenging themselves. Avon class turned into little architects at Forest School, investigating different materials and constructing shelters creating some super structures! Meanwhile, Windrush class has been testing their balance and bravery on our new slack line.

We're pleased to announce that Gloucestershire Cricket Foundation will be visiting us on Monday. They'll be coaching cricket sessions for all classes as part of our involvement in Chance to Shine so please remember to pack those PE kits for Monday. Our two new afterschool clubs start on Monday. We have the exciting Dungeons and Dragons club, while our future scientists and engineers in Key Stage 1 and Reception will flex their creative muscles in the STEM club.

Nos vemos a todos el lunes!

Mr Godding

Headteacher

All updated policies are available on the website or from the school office on request

Resilience Heroes

Coln - Athena for showing resilience and independence with her writing

Avon - Colby for demonstrating great resilience with his Maths work this week when partitioning 13

Windrush - Jessamy for demonstrating resilience with her learning

Evenlode - Eliza for exercising great resilience to help her succeed with her work on adding fractions

Awards

Headteacher's Award this week goes to **Ellie J** for showing a super attitude at Forest School this week

Bronze cards awarded to **Uma** and **Arthur M**

Our Stars of the Week are:

- * **Uma** in **Coln** for showing independence with her writing
- * **Archie** in **Avon** for excellent work this week in all subjects
- * **Francesca** in **Windrush** for always showing a positive and determined attitude to her learning
- * **Max M** in **Evenlode** for brilliant effort in maths recently with our work on long multiplication and decimal multiplication

Well done to everyone for their awards!
